Q. Okay. Are all narcotics ² Schedule II narcotics or is there some

³ variation in that group?

- A. Narcotics are broken into ⁵ Schedule II and II-N. There'd be two. Schedule II narcotics and non-narcotics.
- Q. Okay. And then what's a caged product?
- A. Those are products 10 categorized in Schedule IIIs, IVs and Vs.
- 11 Q. What's the difference between a cage and a vault?
- 13 A. Well, a vault is pretty much ¹⁴ what you would see in a bank. It's got 15 steel walls and it's constructed in ¹⁶ accordance with federal regulations to ¹⁷ hold controlled substances, specifically ¹⁸ narcotics.

19 The cage is really just ²⁰ exactly the way it's indicated. It's a ²¹ cage that's chain-link fence that ²² generally has five sides, four sides plus ²³ a ceiling. That's basically -- and it's ²⁴ all constructed within federal

A. That's correct.

Q. And what is your

understanding of why they needed to be more secure?

A. Generally speaking, per, per federal regulations, the more powerful the drug family, you know, the higher the regulatory requirement for storage.

Q. What do you mean when you say a more powerful?

A. Well, controlled substances are broken into Schedule I through Vs. Is, Schedule I products have no medicinal value like LSD. It's used for like in a

Q. Okay. In your experience ¹⁴ was there less likelihood of theft of the

A. No. No, pretty much it was 16 ¹⁷ all stolen pretty -- pretty -- I mean ¹⁸ based on my recollection I think it was 19 pretty common negative inventories for ²⁰ the cage and the vault product.

- ¹ information requests and handling
- licensing for all their distribution
 centers. That took up -- that took up
- ⁴ almost all my time.
- ⁵ Q. Okay. That's fine. And ⁶ then you said after the merger you were
- ⁷ relocated from Orange County, California,
- 8 to Chesterbrook, Pennsylvania, right?
- A. Yes.

13

- Q. Okay. And you said you continued to conduct the licensing and information requests?
 - A. For a period of time, yes.
 - Q. Okay. Do you remember if the department you were working in at that time after the merger had a name?
- A. Yeah. Post merger we became the corporate security regulatory affairs department.
- Q. And did you have a job title when you switched over to the new company?
- A. At that time, I think I stated before, I think they switched me

- ¹ to manager of regulatory compliance.
- ² Either manager or supervisor. I can't
- ³ remember what the exact title was.
 - Q. Okay. So prior to the
- merger, you don't recall having a job
- title. Or you just don't recall what it
 was.
- 8 A. I had a title. I just don't
- 9 recall what it was.
- Q. Okay. And you were working in information requests essentially,
- 12 right?
- ¹³ A. And licensing was a big part ¹⁴ of my job as well.
- Do I my jet us well.

 Q. What do you mean by licensing?
- A. So I -- I coordinated all
- 18 licensing for each of our distribution
- ¹⁹ centers. So we had, I believe, 26
- ²⁰ distribution centers on the Bergen side
- ²¹ and I handled that up to the merger. And
- then post merger we picked up another 26
- ²³ distribution centers, I believe, that
- Amerisource had, for a total of 52

Page 65

Page 64

- ¹ distribution centers. So I was
- ² responsible for bringing those divisions
- ³ together, conducting name changes on the
- ⁴ licensing, and a lot of other related
- ⁵ work, related to that merger.
 - There was a lot of work that
- ⁷ was involved when you merge two
- ⁸ distribution centers from two different
- ⁹ companies. So I was involved with that
- 10 for probably the first six months to a
- 11 year after the merger. And that was --
- that was the reason, because I was prettymuch the licensing expert for our -- for
- our company, Bergen Brunswick, and so I
- our company, Bergen Brunswick, and so lost coordinated all that.
- Q. So it sounds like you -- you bled between two time periods there. I
- ⁸ just want to make sure I understand what
- 19 we were talking about.
 - So from '98 to 2001, when
- ²¹ the company was Bergen Brunswick, in
- ²² addition to the information requests that
- you handled, you also managed the
- ²⁴ licensing for all 26 of Bergen

Page 66 Page 68 ¹ Brunswick's distribution centers, right? ¹ occurred, there was a combination of 2 ² Bergen Brunswick's distribution centers A. I was responsible for responsible for integrating the licensing ⁷ bringing Bergen Brunswick distribution of those two groups of distribution ⁸ centers into a batch renewal, which was a 9 new project that the DEA rolled out in centers? ¹⁰ that time frame. 10 A. That's correct. 11 11 And also all the state Q. All right. And that was 12 licenses that the distribution centers -part of your responsibility as either the manager or supervisor of regulatory ¹³ each distribution center held a number of compliance? 14 state licenses, maybe, you know, five to 15 ten state licenses that they distributed A. No. I wasn't -- I don't ¹⁶ into. So -- so basically, all licenses 16 think it was included in that -- in that ¹⁷ that the distribution centers held, job title. But I kept -- I kept that previous responsibility for a period of ¹⁸ federal and state. time, then it was subsequently 19 Q. Okay. And in your job transferred to a member of the legal ²⁰ responsibilities where you were handling ²¹ department after -- after I took over my ²¹ the information requests and the ²² licensing of distribution centers, you ²² new role as -- I believe it was ²³ reported directly to Chris Zimmerman? ²³ supervisor of regulatory compliance. A. I don't recall who I Q. Okay. So you handled the Page 67 Page 69 ¹ reported to post merger, but at some ¹ licensing until it moved to legal, point I transferred to Steve Mays. ² correct? Q. No. I think it was -- it ⁶ believe I was reporting directly to Chris was post -- obviously it was post 2001. Zimmerman for that entire period. ⁷ I think it took us about a year to transfer the licenses to the new name. Q. Understood. So in 2001 the merger happened, correct? Q. Okay. So at the time of the 10 A. Correct. merger I think you referenced that a new 11 department in ABC was created called the 11 Q. And then Bergen Brunswick corporate security and regulatory affairs merged with Amerisource Health, right? 12 ¹³ department, correct? 13 A. Correct. 14 Q. Do you know what the name of A. A. Basically all of security 11 requirements. We also conducted OSHA ¹² audits. So it really entailed everything 13 the DEA would do if they came into our ¹⁴ distribution center and conducted an ¹⁵ audit. And so we would basically oversee ¹⁶ all of the state and federal requirements ¹⁷ from a regulatory and security 18 standpoint. And we would conduct an 19 audit and we would just do internal

²⁰ audits and -- and we would correct any ²¹ deficiencies that we identified. Q. What time period were you

²³ employed as the regulatory compliance ²⁴ supervisor?

10 A. Again, it's outside of my area. I believe there's four regions. But I could be -- I could be mistaken. Again, it's not really something that I focus on in my current responsibilities.

Q. Were there ever more than four regions?

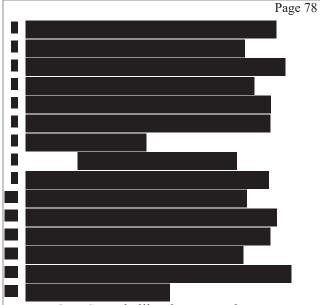

17 A. I believe there was five at 18 one time.

Q. So at some point there may have been five. Now there are four?

21 A. I'm not sure about that. But I think that may be accurate.

properly. 5 Customer returns, we have to 6 look at the product and make sure that

⁷ the product, you know, wasn't opened. There was a lot of OSHA

requirements that we followed from a ¹⁰ security -- safety standpoint. 11

There's a lot of -- there's a lot of state requirements that we have 13 to follow for prescription drugs as well 14 since that is not on a federal jurisdiction. That's more state jurisdiction.

17 So there's a whole array of state-specific regulations that we also

have to follow with regard to

prescription drugs. So we have a very

long audit checklist that we follow at

that level.

23 So it takes about a full week to conduct those audits. There's a

So there's a whole array of federal requirements on a regulatory standpoint that we had to ensure that the distribution centers were following as well.

Not all of that specifically covers security. There's a lot of regulatory requirements that we're required to follow as a wholesaler.

³ BY MR. PIFKO:

Q. Okay. Let's talk about the

⁵ nature and scope of the investigations

⁶ that you conducted. Were there different

⁷ types of investigations that you

conducted?

A. Yes, a whole array.

Q. All right. Can you name some of them today?

A. As a regional director, I

¹³ did a lot of theft investigations. I

think that would be the lion's share of

the investigation types that I conducted.

Q. And --

¹⁷ A. In --

16

Q. I'm sorry. Continue. I

¹⁹ don't want to interrupt you.

A. In addition to that, I did

²¹ construct investigations from 2005 to

22 2007. I would review what we call the

²³ possible suspicious order reports. And

24 this was a function that was assigned to

Page 202 Page 204

¹ the Philadelphia DEA office. I worked

² with him closely on an investigation when

³ I was in the middle of transitioning from

⁴ Orange, California to Philadelphia. It

⁵ was a long -- a nearly two-year

⁶ investigation I worked very closely with

⁷ him on.

8

Q. What was the nature of the

⁹ investigation?

A. It was Highland Park

¹¹ Pharmacy. We were working with him from

12 the beginning of that investigation, and

¹³ we were giving him sales reports for the

¹⁴ customer that was being investigated.

¹⁵ Like I said, it was an in-depth, long

¹⁶ investigation, and during that period of

¹⁷ time I became pretty friendly with Scott.

¹⁸ He's a personal friend today. We

19 actually got awarded as a result of that.

²⁰ I have a plaque in my office from the DEA

²¹ and the contributions to the field of law

²² enforcement in the drug distribution

²³ industry.

So that -- I worked with him

Page 205

Page 203

¹ me as a collateral duty outside of my

² responsibility as regional director.

Q. Did you ever interact with

4 anyone from the DEA when you became a

⁵ regional director?

A. Yeah. I had a lot of

⁷ interaction with DEA, special agents as

well as diversion investigators.

⁹ Q. Again, I want to make sure ¹⁰ we're talking about a clear time period,

but over your tenure as a regional

director, can you name some of the names

¹³ of DEA agents that you interacted with?

A. Scott Davis, Philadelphia

15 DEA, was one.

There were so many. He's really the guy that comes to mind right

¹⁸ now.

19

Q. So Scott Davis was the

²⁰ primary DEA agent who was visiting

¹ facilities that you had responsibility

²² for; is that correct?

A. No, I wouldn't say that.

²⁴ He -- he is one of the investigators with

¹ a lot on the local distribution centers,

² Thorofare, New Jersey; Bethlehem

³ Pennsylvania.

Q. Highland Park Pharmacy,

that's a pharmacy in Philadelphia?

A. They're located in a suburb

of Philadelphia. I believe they were

8 near Newtown Square or in that general

⁹ area.

19

Q. Do you know what the outcome of that investigation was? Was there an action taken against that pharmacy?

A. Yes. That owner went to prison.

Q. Do you know what the basis of the charges was?

A. It was I believe diversion of narcotics.

Q. What specifically? Opioids?

A. Yeah, I don't remember the specific drug families but it was

²² certainly opioids.

Q. And do you know what the nature of the conduct specifically was

¹ with respect to the diversion, what

- ² was -- what was occurring at that
- ³ pharmacy?
- A. The DEA doesn't share
- ⁵ specifics of their investigations with
- ⁶ industry. So we pretty much worked with
- ⁷ him on providing him sales reports for
- 8 that extended period of time. But, just
- ⁹ the way law enforcement works, they don't
- ¹⁰ share specific information due to its
- ¹¹ confidential nature.
- Q. Based on the information that you provided to Mr. Davis, was the
- pharmacy selling high volumes of
- controlled substances?
 - MR. NICHOLAS: Object to the form.
- 18 THE WITNESS: Yes, they 19 were -- they were buying very high 20 volumes of narcotics.

specifics.

16

17

22 Q. Do you remember estimating ²³ the proportion of opioids versus their ²⁴ total sales from AmerisourceBergen?

- Page 206 ¹ investigation, how you came to be
 - ² involved with -- did someone at the
 - ³ company call you and say we need you to

Page 208

Page 209

- ⁴ work with this DEA agent or did they call
- you directly?
 - A. That -- that investigation
- started when I was working for Bergen
- Brunswick in a capacity of regulatory
- specialist I think my title was.
 - So I was responsible for
- ¹¹ subpoenas for the company as I had
- indicated previously. So Scott contacted
- me or his request gravitated to me and I
- ¹⁴ began working with him I believe around
- the 2000 time frame and through my
- promotion to becoming a regional
- supervisor when I moved to Pennsylvania.
 - Q. Okay. Did the company --
- 19 the -- the company, so, when you -- what
- ²⁰ was that title you said that you had when
- you were -- so you said you were a
- ²² security officer when you started and then you moved into this other job?
 - A. I believe it was a

Page 207

- O. Okay.
- Q. Okay. Have you heard the

A. I don't recall the

- concept of a red flag? Yes, it's a general term we
- 6 use. Q. Okay. Have you heard that
- 8 one of the red flags of diversion is the
- proportionality of controlled substances
- ¹⁰ to a customer's total substances they
- ¹¹ purchase from a distributor, have you
- 12 heard that before?

13

19

- A. Yes, I have.
- Q. Okay. Regardless of whether
- you remember the specific number that 16 this pharmacy was buying, do you recall
- ¹⁷ that -- proportionality being one of the
- red flags of diversion for that pharmacy?
 - A. I don't recall. It was too
- ²⁰ long ago. This was almost -- this was
- ²¹ 18 years ago. So it's just too long ago
- ²² for me to remember specifics about that
- particular investigation. 24
 - Q. Do you recall how that

- ¹ regulatory specialist --

 - A. -- but I'm not sure about
- ⁴ that. It is just something that seems to
- ring a bell.
- Q. Did the company have a
- database where they kept subpoenas and
- investigative requests of that nature
- that you were responsible for responding
- to in a centralized location?
 - A. Yeah. In that time period
 - we had, we had a system.
- 13 Q. Okay. What was the name of
- that system?

- A. I believe it was law -- Law
- Track or Law Pack. I think it
- transitioned from one to the other, but
- again, that was a long time ago.
- 19 Q. Okay. So then when -- after
- the merger occurred, do you know what the
- system that would have been used to
- centralize this request was?
 - A. I think we moved it into Law
- 24 Track.

Page 210

O. Okay.

2 A. I think the previous system was Law Pack.

1

- Q. Do you know the period for ⁵ how long those kinds of investigations ⁶ and requests would be maintained on that system?
- 8 A. Well, they were maintained ⁹ from that point all the way until, you 10 know, roughly in the last year or two when we switched systems.
- Q. Okay. And then when you 13 switched systems, what -- what did you do with the data, do you know?
- A. The data was transferred to ¹⁶ another system for maintenance, and it's still there. It's still retrievable by us.
- 19 Q. Okay. Is that -- from time ²⁰ to time do you ever go back and, for ²¹ business reasons, look at that data?
- A. I do. I don't do it as much ²³ as my investigators do. They are the ones that are doing the day-to-day

- ¹ seek to obtain information from that
- ² historic system?
- A. During any investigation.

Page 212

Page 213

- ⁴ If we're looking into a customer and we ⁵ want to see their background, what we
- 6 have in their due diligence file, we
- ⁷ would go into either system to see what
- ⁸ we have on them. So that would be a
- result of investigations or subpoenas,
- any number of reasons.
- 11 Q. Okay. And as far as you know, the -- the subpoenas, investigative
- reports, and the company's responses to those reports, are maintained
- indefinitely on that system?
 - A. I believe so.
- 17 Q. Okay. So do you recall any other -- other than Scott Davis, any other DEA agents that you interacted 20 with?
- A. Yeah, there were a lot of 22 them. Doug Crawford in the -- in the ²³ Columbus area. I dealt with him. A lot
- ²⁴ of groups of advisors, a lot of

Page 211

- ¹ investigations for the most part. But
- ² they do go in there readily. I mean,
- ³ that's where all the old information is
- Q. Okay. You said you do from 6 time -- you have on occasion?
 - A. Yes.
- Q. Okay. Is there like a --9 how do you access that, is there like a
- 10 portal you have to log into?
 - A. Yes.

- Q. Okay. And when you log into that, and you can keyword search it or something, how does it work? 15
 - Yeah?
- A. Yeah. There's two systems. 16
- ¹⁷ There's Matter Management that we put our
- 18 new information into. And then that --
- 19 the other system, I'm -- I'm sorry, the
- ²⁰ name escapes me what it's called. But
- ²¹ we -- we have ready access to both 22 systems.
- Q. Okay. What are the types of
- ²⁴ occasions on which you would -- you would

- ¹ investigators. There's so many of them.
- ² I don't really deal with them very often
- ³ anymore, so this is -- you know, years
- ⁴ ago that I was dealing with these people, ⁵ so...
- Q. I understand we're talking about a time period that was earlier and maybe there's a lot of names. But it just -- it would help if you can remember
- any other names. I know it's kind of an odd question.
- 12 But so you remember Scott Davis, Doug Crawford. Any other names?
 - A. I didn't really prepare for this question, so no, none -- none of those come to my mind right now.
 - Q. Mr. Crawford in Columbus, is there -- is there a reason why you remember his name?
- 20 A. He's conducted audits of our distribution center.
- 22 Q. Okay. And he conducted ²³ audits of distribution centers for which you had responsibility?

Page 214 A. I'm not sure if I had

- ² responsibility at the Columbus
- ³ distribution center when he audited us.
- ⁴ I may have. I'd have to check the
- ⁵ records for that.
- Q. That was my -- my next
- ⁷ question. Did you have any
- responsibility for distribution centers
- in Ohio?
- 10 A. Yes, at one time.
- 11 Okay. And what time was 12 that?
- 13 A. I don't recall. I'd have to
- ¹⁴ check, check the -- the system for the
- 15 time period that I had the -- I had the
- ¹⁶ Chicago and the Columbus distribution
- ¹⁷ centers within my region, but I don't
- 18 recall the exact dates.
- 19 Q. When you say check the
- system, what would you check?
- A. I'm sure that within the 22 system there would be documentation that
- ²³ indicates the assignments that we had and
- ²⁴ which distribution centers were, you
 - Page 215
 - ¹ know, located within the region that I
- ² had responsibility for.
- Q. Is there like a name of a
- ⁴ document that would say who was assigned
- to what, that you can think of?
- A. I don't recall what the name of the document would be.
- Q. Okay. But there's some sort
- ⁹ of document that says, these are the
- ¹⁰ distribution centers within this person's
- 11 responsibility, these are the ones within
- ¹² this person's responsibility; is that
- 13 correct?
- A. Yeah. It should be usually ¹⁵ a United States map and it breaks down
- ¹⁶ which investigators had responsibility
- for which DCs.
- Q. Okay. And how was that 18 ¹⁹ maintained in the company's files?
- A. I would say that it's kept
- ²¹ in general correspondence. Steve Mays
- 22 assigned it. And a lot of times we -- it
- ²³ was based on sales region and then we
- ²⁴ broke away from that.

- Q. If you wanted to access it,
- ² how would you go to find that?
- A. It's a good question. I'm
- ⁴ not really sure where it would be. We'd

Page 216

- ⁵ have to search for it.
- Q. Do you have -- do you have
- network drives on your system, does that
- mean anything to you?
- A. Not sure.
- 10 Q. You understand that you can
- 11 save something onto your computer, right,
- like on the C drive. But do you have
- 13 like a shared drive where you save
- certain -- certain documents that you
- would look at or other people can save
 - documents to?
- 17 A. Yes, we have a shared drive.
- 18 Q. Okay. What's the name of
- 19 it?

23

- 20 A. I call it the S drive.
- 21 Q. Okay. And to your knowledge
- how long has that been in use?
 - A. A long time. I don't
- ²⁴ remember when it started.
 - Page 217
- Q. So dating back to like 2002 ² when you were regional director, do you
- ³ believe you would access the S drive at
- 4 that time?
 - A. I don't think so.
- 6 Okay. So some time after
- ⁷ that?

- A. I'm not sure but I would
- think that it was -- it's so long ago, I
- don't recall.
- Q. Okay. Well, do you recall
- ¹² accessing documents or saving documents
- 13 to the S drive when you were a regional
- ¹⁴ director at any point?
 - A. Yes.
- Q. Okay. Is that a way that
- you would have shared information
- among -- so obviously there's a region,
- so there's other people would you need to
- ²⁰ interact with. You might need to
- ²¹ interact with your boss. Is that a way
- 22 that you would have saved documents so
- 23 that you could communicate with each
- 24 other?

²⁴ years. I can't really pinpoint beyond

A. I would say in the last five

22 said?

²³ the issues that you worked on with him?

A. Well, he was chief of

Q. Okay. Can you name some of

Page 222

- e-commerce, so we had to get
 clarification from him quite a few times
- ³ on regulations. We transitioned to the
- ⁴ CSOS program at one point. And I headed
- ⁵ up that transition. And so I worked
- ⁶ closely with Mike. In that -- same thing
- ⁷ with the batch renewal. We were one of
- 8 the first distribution centers in the
- ⁹ industry to transition to CSOS. So I
- 10 worked closely with him during that
- period of time regarding that transition.
- Q. Do you have an understanding of the timing, about when that was?
 - A. It started pre -- pre me starting with the company. I think CSOS
- ¹⁶ started around '95. And I think we
- ¹⁷ transitioned -- I don't recall exactly.
- ¹⁸ I think it was the early 2000s.
 - Q. What does CSOS stand for?
- A. Controlled Substance
- ²¹ Ordering System.

19

- Q. Okay. And can you tell me what that is?
 - A. So for years DEA had the

¹ early 2000 period?

A. I can't remember the date.

Page 224

- ³ But it was right around that -- it might
- ⁴ have been the late '90s.
- Q. If a customer uses a paper order form, they have to -- how do they
- ⁷ send it to you? Fax it or mail it?
 - A. Yeah, they could -- they
- ⁹ could send it any number of ways. They
- o could mail it. They could send it with
- the driver who delivers their shipment,
- ¹² and then give it to them in an envelope,
- ¹³ and then it goes back with the driver.
- 14 They can fax it to us. There's a lot of
- ways that we -- that we receive paper 222
- ⁶ forms from our customers.
- Q. And then when customers use
- 8 the electronic ordering system, they have
- 19 some sort -- they have a computer in
- ²⁰ their store or whatever, and they access
- 21 some sort of portal to enter their order?
- How does that work?
- A. Yeah. They -- they have to get approved by the DEA. They have to

i tiic

Page 223
Page 225

- ¹ paper 222 form, narcotic order form.
- ² It's in triplicate. It has ten line
- ³ items that a customer could fill in to
- ⁴ receive narcotics. So they finally
- ⁵ switched over to an electronic 222
- ⁶ program that took away the paper form
- ⁷ that's printed in triplicate and allowed
- ⁸ customers to place orders electronically
- ⁹ through encryption. And a lot of DEA
- 10 technology involved, so that can be
- ¹¹ completed, you know, without the paper
- 12 forms. So that's really the next
- ¹³ generation of the narcotic paper order
- 14 forms.

24

- Q. And so that's the way that customers place an order with the
- company, using that system?
 A. Not all customers. A lot of
- customers are still on the old paper 222
- of forms, a lot of the old pharmacists that
- ¹ are not really technology savvy. But all
- ²² the new customers pretty much
- ²³ transitioned to the CSOS program, yes.
 - O. And this started in the

- ¹ complete a form, and then the DEA issues
- ² them a certificate, and they receive a
- ³ paper authentication number and then one
- ⁴ via e-mail. And then they authenticate
- 5 that digital certificate. And then once
- 6 they receive the digital certificate,
- ⁷ it's embedded into a computer that they
- ⁸ use to access that certificate using what
- ⁹ they call the -- I think it's dual
- 10 credentials that they use.

And then once that digital

⁻² certificate is in the customer's

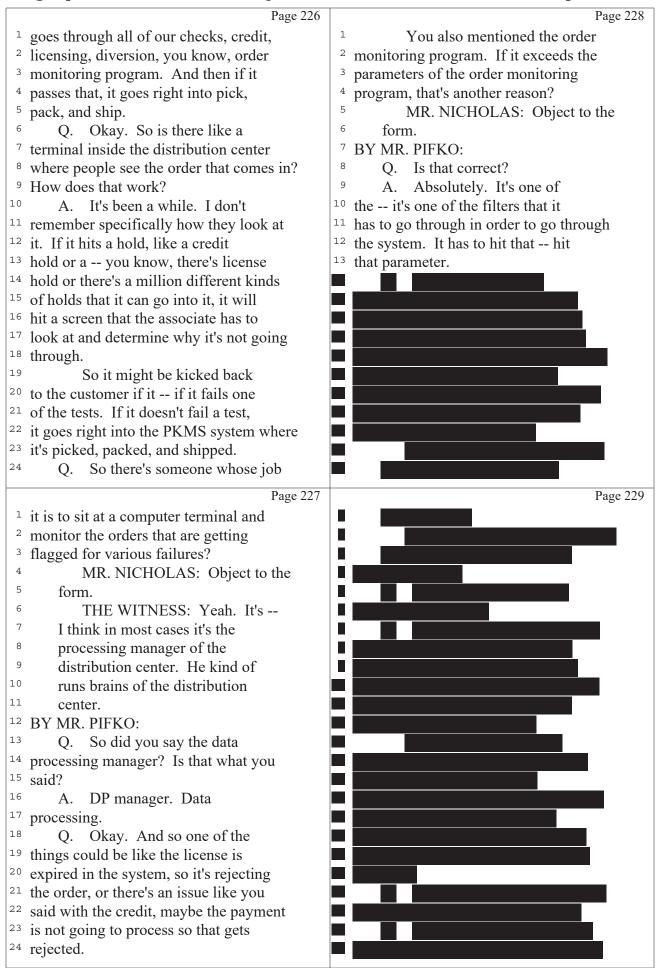

computer, they can use that to build an

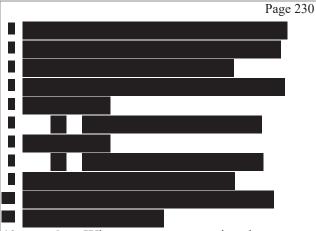

⁴ order using our system, and then shoot it

out electronically.

11

- Q. And then it's received on the other end electronically as well?
- A. Yeah, it goes through the
- ⁹ CRL. It's called the certificate
- ²⁰ revocation list. It's a daily transfer
- that we receive as the wholesaler to
- ²² verify that that digital certificate is
- ²³ valid. And then once it passes that
- ²⁴ test, it reaches our system. And then it

- ¹⁰ were questions, we would ask them at that
- 11 time. But we would -- we would ask
- ¹² detailed questions about how it was being
 - ³ managed when we did the audits.
- Q. About how many RPICs would a particular distribution center have at any one time?
- A. It would depend on the distribution center. Anywhere from three
- or four to maybe ten depending on the
- size of the distribution center and how
- busy they were. We have some
- ²² distribution centers that are very small
- ²³ and they service a very small area. Some

THE WITNESS: We would look at, you know, what they were doing during our audits. The compliance manager who reported up to the regional director had responsibility of all the RPICs within that distribution center.

So -- so there would be sort of an extended responsibility from the director if it was the directors distribution center that he or she was auditing.

⁴ BY MR. PIFKO:

- Q. And that compliance manager, that's someone that you would interact with in the audit process, correct?
 - A. Yes.
- Q. Okay. And would you ask them questions about their compliance with overseeing the responsible people in charge as part of your audit?
- A. If we had reason to ask them as part of the audit. I mean, we -- we

Q. How does the Lockbourne facility fare in the size, comparative size that you were just describing?

- A. Larger.
- Q. Okay. That's a place that would have more like ten RPICs?
- A. That's just a -- just a general --
 - O. Estimate?
- A. -- idea. Probably, yeah. I mean, average for larger divisions, probably maybe between six and eight. But it's hard to say. They vary from DC to DC, but yes.
- Q. Okay. Is there -- as part of your audit keeping, are you familiar with records that would describe who was holding those roles at any particular time?
- A. Yes. I believe there was a list of the RPICs at the distribution center.
- Q. Okay. Do you know what the name of that list was called?

Page 234

A. No. I don't remember what it was called.

- Q. Would that be kept in some ⁴ central file at the distribution center?
- A. Yes. It would. I think we ⁶ used the training documents as the list ⁷ as who was trained and who was performing 8 that function.
- Q. What do you mean by that? ¹⁰ There was a training?
- 11 A. Yeah. The RPICs were 12 required to undergo training, so we 13 would -- you know, I think it was an ¹⁴ annual training requirement that they all ¹⁵ had to go through. So we would use that ¹⁶ as the document. 17
- Q. So when you are conducting the audit, you look at the records of who was trained and when?
- 20 A. That was one of several ²¹ things that we looked at, yes.
- Q. Was there a way to tell if ²³ someone was an RPIC but they weren't ²⁴ being trained?

- BY MR. PIFKO:
- Q. Okay. And you were just --
- they knew the types of files that you ¹⁰ wanted when you came because you had done
- 11 these audits before?
- A. Yeah, there's a document 13 that indicates -- that we would give them at the onset of the audit that would indicate everything that we needed.
- Q. Okay. So to your knowledge, what -- as an auditor, what was the period for how long back they kept those records?
- 20 A. It would depend on the ²¹ document and the record. We had a ²² record -- what do we call it? A
- ²³ retention policy. And it would depend.
- ²⁴ You know, different records had different

Page 235

- A. Yes. That's one of the ² things that we audited for.
- Q. Okay. And there was ⁴ documentation of who those people were ⁵ and their training history? That would ⁶ be kept at the distribution center?
- 7 A. Yes.

10

- Q. Is there like -- were these on paper files or electronic files?
- A. We used paper files. When 11 training is conducted at the distribution ¹² center, they would have to sign that they ¹³ were trained, and they show the date of 14 the training and the details of the 15 training. So we would use that as the ¹⁶ basis.
- 17 Q. In your experience as an ¹⁸ auditor, were the training files, or --¹⁹ and general compliance files that you ²⁰ would be looking at, were they all kept ²¹ in a central location, like go to this ²² room and that's generally where the ²³ compliance files are kept? 24 MR. NICHOLAS: Object to the

- ¹ retention policies.
- Q. Okay. Was that -- the ³ retention policy, is that part of the audit checklist?
- A. No. That's laid out by the legal department, I believe.
- Q. Okay. But it's a document 8 that, like Form 222 should be kept this long, training documents should be kept 10 this long, is that -- that's kind of what 11 it would look like?
- A. Yeah, it would -- that would be identified in the audit checklist, how ¹⁴ far back they are required to have those documents and we would verify that.
- Q. Okay. And then when you 16 filled out these audit reports, would you save them to some centralized drive?
- 19 A. Yes. They would be kept electronically.
 - O. On the S drive?

21

22 A. I don't recall putting them ²³ on the S drive. I know that they were ²⁴ filed in our -- in our -- in our system,

- Q. You mentioned that from time
- ⁵ to time you go back and access or
- ⁶ investigators go back and access
- ⁷ historical records. Are those audit
- 8 reports something that people access and
- you've accessed?
- 10 A. Yes. That would be part of ¹¹ our due diligence documentation that would be readily retrievable and used from time to time as necessary.
- Q. Okay. And so this day you can still access them and use them?
 - A. Yes.

16

- 17 Q. So I know we've gone a ¹⁸ little branch of the tree there. But I
- ¹⁹ was asking you still about DEA agents 20 that you interacted with. And we had
- ²¹ talked about Mr. Mapes.
- So you mentioned that you ²³ interacted with him on licensing
- ²⁴ procedures and on the CSOS program. How

- 2 ABC, which means I'm the main --
- 3 I'm the main liaison between the
- DEA and CSOS. So I worked with
- 5 them a lot regarding CSOS
 - regulations and drafting our
- 7 policies regarding the CSOS 8
- program. So that was a lot of 9 interaction.

And beyond that would be the renewal process earlier on.

- 12 Renewing the batch renewals. And 13 above and beyond that would have
- 14 been just -- he was a good contact
- 15 for us so we would use him as a 16
- contact for a lot of regulatory 17 clarification.
- BY MR. PIFKO:
- 19 Q. So you just felt you had a good relationship with him, so if you had a question you would just pick up the
- phone and -- and call him or something,
 - is that kind of what you're telling me? A. Exactly.

Page 239

- ¹ about any other types of issues that you

- 3 As an agent? A.
- 4 Yes. O.
- A. When he was with DEA.
- 6 O. Yes.
- A. Other than just other
- ⁸ miscellaneous requests for clarification
- ⁹ of regulations. There was probably two
- or three instances with that I can
- ¹¹ vaguely recall, but I don't remember
- ¹² specifics. But it would really pretty
- ¹³ much -- that would pretty much cover
- 14 the -- the instances that I interacted
- ¹⁵ with Mike.

16

- Q. So requests for
- ¹⁷ clarification or regulation, what was the

- 19 occasions that you remember kind of

 - THE WITNESS: Well, I'm the

- Q. Okay. How about e-mails,
- ² did you e-mail with him when you had

Page 241

- ³ questions?
- A. No. The DEA don't like
- ⁵ e-mails too much. They -- they have a
- ⁶ firewall. So we would get -- once in a
- ⁷ while they would respond via written
- ⁸ form, but usually we would get verbal
- clarification on regulations.
- Q. Okay. So you have -- the
- 11 nature of your relationship with
- Mr. Mapes was such that you could just
- pick up the phone and -- if you had a
- question and talk to him and get an
- 15 answer?

21

- 16 A. Yeah, he knew who I was so
- he would take my call.
- 18 Q. Okay. And then did you take

 - A. God, I don't recall.
 - O. Okay.
 - A. With clarification of
- ²³ regulation, we would -- we would use

- Q. Frieda, how long did you -over your tenure do you recall working

- ⁹ A. Several years. I don't ¹⁰ remember specific dates.
- Q. At some point she left the company?
- A. I believe so, yeah.
- Q. Have you talked to Rodney or Frieda in -- at any time in the last few
- 16 years?
- ¹⁷ A. No.
- Q. It's got some people who are identified as appearing on behalf of the
- ²⁰ DEA below that. Do you see that?
- A. Yes.
- Q. Do you know who any of those people are?
- A. I remember Helen Kaupang.

- ¹ they report up to a program manager. So
- ² they would be sort of the equivalent of
- ³ a -- of a -- like our distribution
- ⁴ center. And then, you know, the program
- ⁵ manager would be equivalent to like a
- ⁶ regional director. So within DEA, that's
- ⁷ the way I would -- I would explain their
- ⁸ roles. So she was in charge of that DEA
- 9 office that had that jurisdiction over --
- over that geographic area.
- Q. You talked about your

- THE WITNESS: No, not as

- ¹⁸ BY MR. PIFKO:
- Q. Okay. Did you ever pick up

 - A. Not that I recall.
 - Q. Do you recall if you ever
- 24 sent her any letters or e-mails asking

Page 271

- ¹ She was the group supervisor of the
- ² Columbus office I believe, so I did work
- ³ with her.
- ⁴ Q. Okay. You worked with her
- ⁵ somewhat regularly?
 - A. She was the group supervisor
- ⁷ for the -- for the DEA that held
- ⁸ jurisdiction for our distribution center.
- ⁹ So I worked with her several times
- ¹⁰ throughout my tenure while I had that
- ¹¹ distribution center.
- Q. She was in that position as
- 13 long as you could remember while you
- were -- you had your role?
- ¹⁵ A. Yeah, I don't remember what
- ¹⁶ years. But I remember -- I remember the
- ¹⁷ name and I remember working with her.
- Q. When you say group
- 19 supervisor, that's what it says here on
- ²⁰ the page, what -- what does that -- what
- ²¹ is your understanding of what that
- ²² entailed?
- A. The group supervisors are in
- ²⁴ charge of the -- of the field office, and

- ¹ her compliance questions?
 - A. No. She was a -- she was a
- ³ group supervisor and Mike was at
- ⁴ headquarters. So Mike would have been a

Page 273

- ⁵ more appropriate person because he was --
- ⁶ he was in charge of the programs. So I
- ⁷ did not have as much interaction with her
- ⁸ as I had with Mike.
- Q. So you knew that if you
- ¹⁰ wanted guidance from the DEA, it would be
- ¹¹ more appropriate to ask someone at
- ¹² headquarters than someone at a regional
- 13 level?

14

- A. Yeah. Their -- their
- ⁵ opinion would carry more weight from our
- standpoint as a wholesaler.
 - Q. Let's go back to
- the additional investigation
- ⁹ responsibility that you took on in 2005.
- ²⁰ What -- I asked you if you remembered how
- ²¹ you kind of came to take that on. You
- ²² said you didn't really have a clear
- ²³ direct remembrance of the meeting or
- ²⁴ specific thing. But you just remember

Page 274 ¹ that you took it on, correct?

A. That's correct.

2

- Q. Okay. So, what specifically
- ⁴ were these additional investigation
- responsibilities that you took on at that 6 time?
- A. So the report that I
- ⁸ reviewed that generated periodically was
- ⁹ called the possible suspicious order
- 10 report. So that report was generated
- 11 based on pre-set parameters, and it would
- 12 come to my office. I would separate it
- ¹³ by customer, and I would conduct separate
- ¹⁴ investigations pursuant to that report,
- ¹⁵ to those customers.
- 16 Q. Do you know how that report 17 was generated?
 - A. I don't recall. I don't
- 19 recall the parameters and I don't recall
- ²⁰ how it was generated. I just know that
- 21 it was generated and it came to my
- ²² office.
- 23 Q. Do you know if that was a
- ²⁴ report that was generated prior to you

A. I know it was periodic. I

- don't remember the frequency.
- Q. Who told you that your new
- ⁴ responsibility was to look at this report?
- A. I believe it was Steve Mays.
 - And you know it was in 2005? O.

Page 276

Page 277

- A. I believe it was within that
- two-year period, from 2005 to 2007. But
- again that was a long time ago. That's
- just my recollection.
- Q. How would this report come
- to you, by -- by e-mail?
- A. No, it would come in
- hardcopy.
- 16 Q. Okay. Through like
- interoffice mail? 17
- A. Yeah, I don't know where it
- was generated from. But I know that it
- was -- it would end up on my desk at the
- predesignated time, you know, at the
- frequency that it was established for.
- 23 Q. Okay. So if it was like ²⁴ every week on a Friday when that would

Page 275

- ¹ having the involvement with it and then
- ² you were just a new person that was
- ³ reviewing it and it had been produced
- ⁴ before and others had reviewed it?
- MR. NICHOLAS: Object to the
- 6 form.
- 7 THE WITNESS: I honestly
 - don't recall. It was so long ago.
- BY MR. PIFKO:
- 10 Q. Do you -- that was kind of a
- ¹¹ longwinded question. Do you understand
- 12 my question?

13

- Did you understand -- I
- 14 think -- I think I know what you're going
- 15 to say but I'll just ask it for clarity.
- 16 Do you understand that that
- ¹⁷ report existed before you became involved
- ¹⁸ with interacting with that report?
- A. I can't confirm knowledge 19
- ²⁰ that that report existed prior to my
- ²¹ taking on that investigative
- ²² responsibility.
- Q. How frequently would this
- ²⁴ report get sent to you?

¹ come, or once a month, whatever, it came

- ² with that regularity and someone would
- ³ deliver it to you?
- MR. NICHOLAS: Object to the
 - form.
- Go ahead.
- THE WITNESS: Yes.
- BY MR. PIFKO:
- Q. Okay. And then it was your
- job to look at the -- I'm sorry if I
- 11 didn't -- if I didn't hear you, the
- orders or the customers that were on this
- list? 13

18

- 14 A. It was -- it was orders and
- it was broken down by customers.
- Q. Okay. So it was your job to 16
 - look at all the orders on this list?
 - A. Yes.
- 19 Q. And how did you know, did
- someone train you about what you were
- supposed to look for when you were
- looking at this?
- A. I don't remember
- ²⁴ specifically how I was instructed to --

Page 278 Page 280 ¹ investigation report. ¹ to review the report. I don't remember Q. Okay. And then would you ² how I was instructed. Q. Do you know who would have save that somewhere? given you the instructions? A. Yeah. I believe it was A. I believe Steve would have maintained in Law Track. Q. And then was there a goal of done that. the investigation that you were trying to Q. Okay. And so tell me what your recollection of what you were determine something? supposed to look at on this report was. MR. NICHOLAS: Object to the A. So the report contained 10 form. ¹¹ sales data for customers. And I believe 11 THE WITNESS: We were trying 12 it was Oxycodone and hydrocodone 12 to determine if any improprieties ¹³ products. If they breached a parameter, 13 were happening with regard to 14 those orders. I would -- I would 14 it would trigger this report to be ¹⁵ generated. So I got the report 15 collect all the information that ¹⁶ periodically and it may have been, you 16 I -- that I could from the ¹⁷ know, I don't remember how much it was, 17 customer to explain, you know, the ¹⁸ but I would separate it by customer, 18 reasoning as to why they were 19 ¹⁹ because it would be, I believe buying that quantity of controls, ²⁰ alphabetical or it might have been by DEA 20 and I would take the findings and ²¹ number. But it would basically be, you 21 I would, you know, provide it to 22 22 know, one customer, then another Steve Mays. And what he did with 23 ²³ customer, and it would just be -- it it, you know, I'm not sure. 24 ²⁴ would span multiple customers in Because at that point the Page 279 Page 281 ¹ grouping. So I would group them in 1 decision -- the decisionmaking ² separate -- in separate files and then I 2 regarding my investigation that I ³ would conduct the investigation of those completed was conducted, you know, outside of my realm. So I'm not ⁴ customers. 4 Q. Okay. And then what -- what 5 sure what the -- what the -- what ⁶ things would you do to conduct the the results of those -- those ⁷ investigation of those customers? investigations entailed. A. I had a couple support staff BY MR. PIFKO: ⁹ within the CSRA department that I used to Q. We would collect all the things that you were evaluating was ¹⁶ information on the customer. We would whether to fill the order? 17 A. Well, keep in mind this was

- ¹⁷ take their responses to our questions and
- ¹⁸ our follow-up questions, and we would
- 19 complete an investigation of each
- ²⁰ customer.
- 21 O. Would there be some sort of ²² document that you would create at the culmination of your investigation? 24

THE WITNESS: Yes, that's correct. BY MR. PIFKO: Q. Let's go back to Exhibit 2, Slide 5. Do you see that? A. Yes. Q. Okay. It talks about

A. Order monitoring program?

Q. Well, where it says,

3 "48-hour reporting to DEA, know your4 customer"?

A. Yeah.

1

2

5

11

⁶ Q. All those things, do you see ⁷ that?

8 A. Yeah.

⁹ Q. Okay. Are you familiar with ¹⁰ what those enhancements were?

A. Not in a detailed way, no.

Q. Do you know what "know your to customer" means?

¹⁴ A. Yes. I understand the DEA's ¹⁵ "know your customer" component.

Q. What is that, what is your understanding of what that means?

A. That we should have a good understanding of what their business

model is so we have a better

²¹ understanding of the orders that they are

placing with -- with our distributioncenters.

Q. And when you say "they," you

Q. Okay. So did you -- did you

² have any involvement with conducting this

Page 336

³ "know your customer" due diligence that's

⁴ discussed here that was implemented in

5 2007?

⁶ A. No, I don't believe so.

⁷ That was handled by a different team.

Q. Do you know the team that

⁹ handled that?

A. That was the diversion control team under corporate.

Q. Who -- who was on that team?

A. I don't recall the specific

14 individuals. I know it was headed by Ed

¹⁵ Hazewski.

12

22

23

Q. Anyone else that you can

¹⁷ think of?

⁸ A. Those investigators

¹⁹ transitioned in and out. I don't recall.

²⁰ Scott Kirsch was one investigator.

Q. Anyone else?

A. I can't remember.

Q. Order monitoring program.

²⁴ Next thing down here. It's got establish

thresholds. Do you know what a threshold

² is?

A. Yes, I have a basic

⁴ understanding of what a threshold is.

Q. Okay. What's your

6 understanding?

A. I don't know exactly what

⁸ went into those thresholds. I know it's

⁹ a level at which, you know, purchase

¹⁰ activity would draw a flag and hold the

order until it could be investigated.

Q. And then it says, "Review at

distribution centers." Is that what it

14 says?

18

20

21

A. Yes.

Q. Okay. What does that mean,

¹⁷ do you know what that means?

A. I believe that's when the

¹⁹ RPICs were implemented at the DC level.

Q. And before that what was the process?

A. Prior to 2007 orders weren't

²³ held when investigation -- or when a

suspicious order was flagged. We would

¹ mean your customer?

A. Correct.

2

8

17

Q. Did you -- have you -- other

⁴ than the investigations that you

5 conducted between 2005 and 2007, did you

⁶ ever conduct any due diligence

⁷ investigations concerning customers?

A. When you say --

9 MR. NICHOLAS: Object to the form.

THE WITNESS: When you say due diligence investigations, I

was -- I was conducting investigations of a possi

you would classify that as a due
